Reinventing an Audubon Sanctuary by Using a Native Tapestry: A Case Study

...a virtual half-day workshop for landscape professionals and the general public. Learn about landscaping with native plants using the real world example of the Theodore Roosevelt Sanctuary and Audubon Center.

December 9, 2021 from 8:30 am – 12:00 pm
$35 per person - ZOOM Webinar

Register Online: ny.audubon.org/trsnativeplants

Continuing Education Credits:
NYS Certified Nursery & Landscape Professionals (CNLP)
• 3 CEU
NY Chapter- International Society of Arboriculture (ISA)
• 3 CEU
Cornell Cooperative Extension - Master Gardener
• Credits TBA
NYS Department of Environmental Conservation
• 1 Credit

Landscape Architecture Credits (LA):
• 3 CEU
Credit hours for NYS Registered Landscape Architects under the subjects of horticulture, landscape restoration, site design, and soil analysis by approved NYSED provider Cornell Cooperative Extension of Suffolk County.

Designing with Natives
Molly Bourne, Mathews-Nielsen Landscape Architects
Participants will learn about the planning and implementation of the Theodore Roosevelt Sanctuary and Audubon Center renovation that created new bird-friendly native plantings and demonstration gardens.

Concepts covered:
• The importance and impact of multi scale site analysis and its influence on planting design.
• Creating large and small-scale impacts on an ecosystem through planting and habitat design.
• Creating both habitat and space for education and interpretation with careful plant selection and design.

Working with Your Local Nursery
Erika Graham, Long Island Natives
Participants will gain insight into the process of working with local native nurseries on ecologically oriented projects.

Concepts covered:
• Challenges and opportunities facing native growers in the ecological industry.
• Proper species selection and why locally grown matters.
• Transplanting risks at different times of the year.
• Impacts of seasonality.
• Project lead times at nurseries from seed to finish.

New Thugs on the Block: A Rogues’ Gallery of Nasties for your Natives
Tamson Yeh, Cornell Cooperative Extension Suffolk
Participants will learn about native garden pests both familiar and new, from insects to other maladies.

Concepts covered:
• Review new and common invasives and issues for native gardens, including lifecycles and favored hosts.
• Recognition of threats during multiple times of the year including critical overwintering habitats.
• Remediation and learning about methods to prevent introduction.
